

# Scan/read QR code using FB chatbot

BY AZIRI  
@M.ME/MOHDZIRI

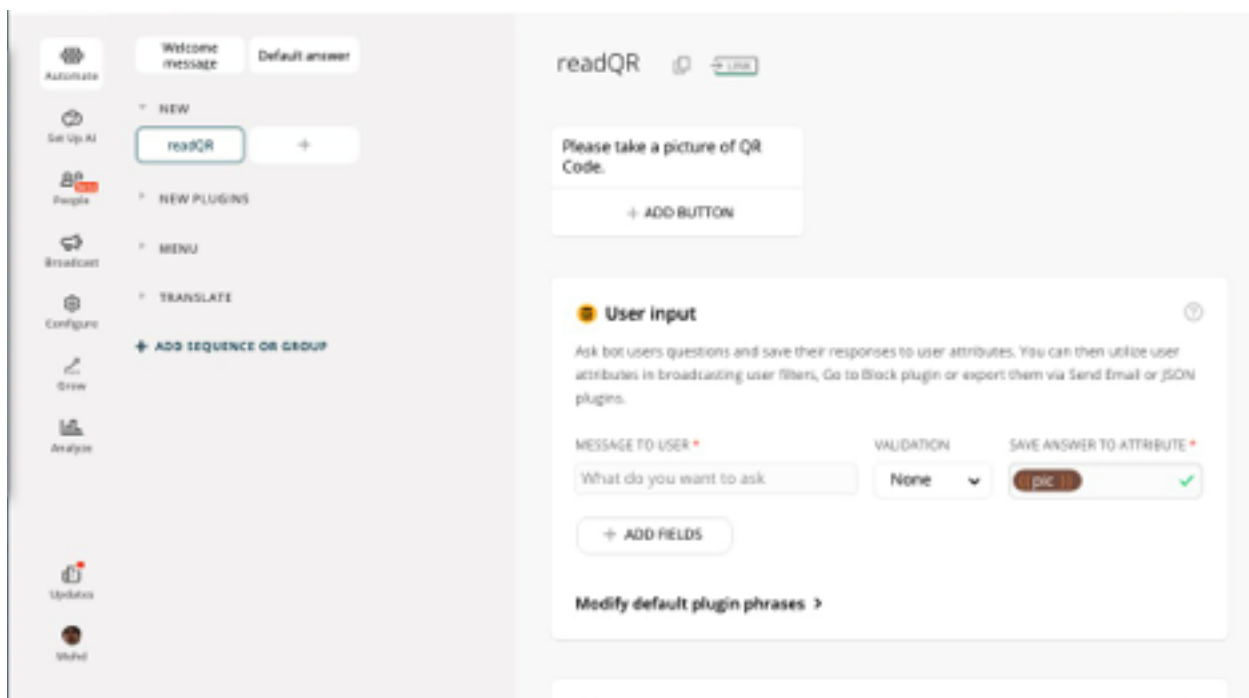

Scan/read QR code content using FB chatbot.

## WHAT YOU NEED

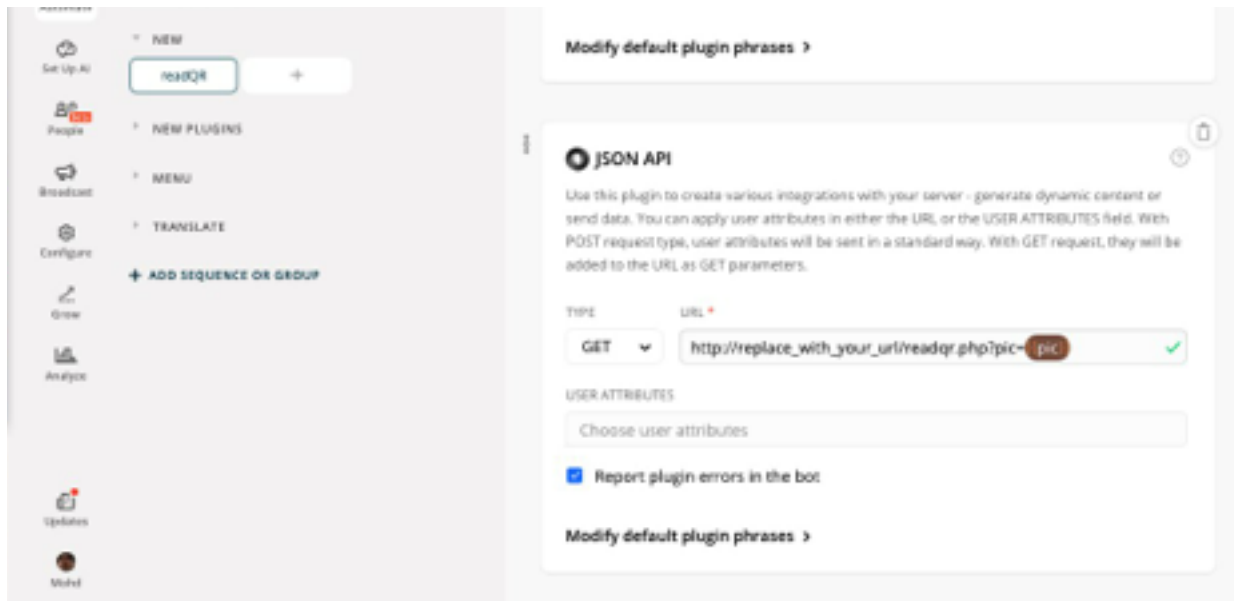

1. Server with PHP
2. QR code API : <http://goqr.me/api/doc/read-qr-code/>

## STEP BY STEP

1. Create a new bot
2. Create block call readQR
3. readQR block > Setup card (refer picture)

\*\* User Input card > Message to user = blank(do not write anything) and attribute = {{pic}}

Make sure copy and paste file readqr.php to your server.  
Done!!!
